Welcome to the 2021 APMA Annual Scientific Meeting (The National)!
Whether you’re on site in Denver or attending virtually, The National is truly the must-attend event for every podiatrist, covering the entire spectrum of foot and ankle care. This year, for the safety and convenience of our attendees, we are presenting The National for the first time ever in a hybrid format. Please note that, based on your feedback, we have organized all of our outstanding content into two convenient tracks (rather than the traditional three). One track will cover medical topics, while the other will focus on surgical topics.

We’ll jump right into educational sessions on Thursday morning. Then, join us in the afternoon for the opening address from Natalie Stavas, MD, and the grand opening of the exhibit hall.

On Friday and Saturday, there will be hands-on workshops on site in Denver (ask about availability of slots at Registration if you have not already signed up) and our popular surgical blitz sessions. Support your alma mater on Saturday during the exciting Podiatry School Student Quiz Bowl. Also Saturday, enjoy the latest science shaping the practice of podiatry at our oral abstracts session and the poster abstracts symposium. In a very important addition to our program this year, on-site attendees can attend a screening of “Do No Harm,” a documentary that exposes the epidemic of physician suicide and burnout. The Saturday evening screening will be followed by a panel discussion featuring experts on physician wellness. Virtual attendees will have the option to take part in on-demand physician wellness programming to replace the two CECH offered to in-person attendees for the “Do No Harm” event.

Sunday will deliver the unmatched Harry Goldsmith, DPM, Memorial Coding Seminar.

Don’t miss important opportunities to supplement your continuing education throughout the meeting. On Thursday, Friday, and Saturday, you’ll have the chance to attend non-CECH symposia on a wide variety of topics. And don’t forget to visit our brand-new Innovation Cafés in the exhibit hall during the Friday and Saturday morning scanning breaks. Rest your feet, help yourself to brunch, and listen to a sponsored talk. Be sure to take some time outside of the educational program to peruse our vast exhibit hall (whether in a virtual or in-person format) and thank the many great companies on hand to share their products and services and support podiatric medicine.

I extend my sincere thanks to our outstanding sponsors who have made this event possible for APMA and its attendees. We are fortunate to enjoy the support of these wonderful companies that play a vital role in our podiatry community.

Most importantly, I thank you for being here. It is a true pleasure to be able to welcome our attendees back to The National after the events of the past year. And we are delighted to be able to serve an even broader community of podiatric physicians and surgeons via the APMA Online Learning Center.

We hope you will share your perspectives about the meeting with us via the meeting evaluation, which will be available soon after the close of the meeting. We look forward to delivering an exceptional event.

Sincerely,
Jeffrey DeSantis, DPM, President
REFUND AND CANCELLATION POLICIES

Cancellation requests must be made in writing. Cancellations received prior to the start of the event will receive a refund minus a service fee ($150 for podiatric physicians; $50 for podiatric medical assistants). No refunds are available for no-shows or cancellations received after the start of the event. Refunds will be remitted after the close of the event.

Force Majeure

In the event an act of God, war, terrorism, government action, disaster, fire, strike, civil disorder, curtailment of transportation facilities, or other cause beyond the control of APMA makes it impossible or inadvisable to conduct this event, APMA shall not be responsible for any expenses (including travel-related expenses and time) incurred by registrant. Registrant may wish to consider purchasing travel or trip-cancellation insurance.

APMA shall not be liable for any failure or delay in providing online CECH to the extent caused by an event beyond APMA’s reasonable control that renders performance impossible, inadvisable or commercially impracticable, including, but not limited to, an act of God, war, terrorism, government action, disaster, fire, strike, civil disorder, curtailment of transportation facilities, disease or epidemic, failure of third party software or services, default of third-party vendors, or failure (or an interruption or defect) in communications or utility services.

Meeting Information and Resources

APMA MEETINGS MOBILE APP
For the most up-to-date information, visit www.apma.org/thenational, or download* our APMA Meetings mobile app for information on the go.

iPhone and iPad Users
Find the APMA Meetings app in the App Store.

Android Users
Visit the Google Play Store.

You can also visit www.apma.org/thenationalapp for a direct link to download the app.

*Past attendees: If you already have the APMA Meetings app on your mobile device, simply select the 2021 Annual Scientific Meeting when you open the app.

POSTER ABSTRACTS PDF
The oral and poster abstracts are listed in a separate publication, available in the APMA Online Learning Center, in the APMA Meetings mobile app, and at www.apma.org/thenational. Peruse your abstracts booklet to learn about the cutting-edge science being presented at The National, and don’t miss the oral abstract presentations on Saturday, July 31, from 10:30 a.m.–12:00 p.m. and the Poster Abstracts Symposium on Saturday, July 31, from 1:00–2:00 p.m. Be sure to vote in the Attendees’ Choice competition!

Posters will be on display in the exhibit hall from Thursday, July 29, through Saturday, July 31. Poster abstracts will be available for viewing online from July 29–31 at www.apma.org/abstracts2021.

YOUNG PHYSICIANS AT THE NATIONAL
APMA recognizes the unique perspective young physicians (YPs) bring to the organization. At The National, a number of YPs are serving as faculty members. Their names are identified with an asterisk.

HARRY GOLDSMITH, DPM, MEMORIAL CODING SEMINAR
APMA has renamed in perpetuity the coding lectures held in conjunction with The National as the Harry Goldsmith, DPM, Memorial Coding Seminar. Dr. Goldsmith was a noted coding expert and a consultant to the APMA Health Policy and Practice department. His vast knowledge of coding was instrumental in the development and evolution of the APMA Coding Resource Center, and he supported APMA’s RUC and CPT initiatives, committee activities, and other efforts.

IN-PERSON ATTENDEES

REGISTRATION
Wednesday–Saturday: Aurora 1–3 Foyer
Sunday: Outside Aurora Hall 1

Wednesday, July 28 2:00–6:00 p.m.
Thursday, July 29 6:30 a.m.–6:30 p.m.
Friday, July 30 6:30 a.m.–6:30 p.m.
Saturday, July 31 7:00 a.m.–6:30 p.m.
Sunday, August 1 6:30 a.m.–1:00 p.m.

All programs and special events for the APMA 2021 Annual Scientific Meeting (The National) take place at the Gaylord Rockies Resort & Convention Center.

EXHIBITIONS
Gaylord Rockies Resort & Convention Center
Aurora 1–3

Grand Opening/Reception
Thursday, July 29 | 4:00–6:00 p.m.
EXHIBIT HALL HOURS
Thursday, July 29 4:00–6:00 p.m., Grand Opening/Reception
Friday, July 30 9:30 a.m.–2:00 p.m.
Saturday, July 31 9:30 a.m.–2:00 p.m.

EXHIBIT HALL LINKS
Exhibit Hall Floor Plan
Exhibitors: Alphabetical List
Exhibitors: List By Category

All refreshment and lunch breaks (except non-CECH lunches and dinners) take place in the exhibit hall.

Note: Products displayed in the exhibit hall have not been investigated or approved by APMA with regard to efficacy or regulatory compliance. Physicians should perform their own due diligence regarding any claims made about products displayed.

VIRTUAL ATTENDEES
LOG-IN INFORMATION
Access The National through the APMA Online Learning Center at www.apma.org/onlinelearningcenter.

INTERACTING WITH EXHIBITORS
Connect with exhibitors through the APMA Meetings App. For more information, visit www.apma.org/thenationalapp.

EXHIBIT HALL GRAND OPENING
Thursday, July 29 | 4:00–6:00 p.m.

Come one, come all to the grand opening of the expansive and dynamic exhibit hall at The National 2021. Follow the crowds from the opening address to the Aurora 1–3 halls. Enjoy light fare as you mingle with colleagues, visit exhibitors, and learn about the best in products and services for your practice and patients. As you visit our industry friends, be sure to thank them for their support. Their commitment makes it possible for APMA to offer you a cutting-edge educational program year after year.

Stop by the APMA booth (#611), where you can find out more about APMA programs and services, make a donation to APMAPAC, register for the Team APMA 5K Run/Walk, and get tickets for the Podiatry Management Hall of Fame Luncheon. Also be sure to visit the new APMA Career Center booth (#623) to check out career resources, browse the online job listings, and make arrangements to meet with potential employers during the meeting. The APMA Career Center booth is also the location for the Young Physicians’ Reception during the grand opening.

Sponsored by a generous grant from PatientPop.

## Schedule at a Glance

### WEDNESDAY / JULY 28
- 2:00–6:00 p.m. | Registration Open

### THURSDAY / JULY 29
- 6:30 a.m.–6:30 p.m. | Registration Open
- 7:00–8:30 a.m. | **Breakfast Symposium 1:** Evidence-Based Wound Care | **Breakfast Symposium 2:** First Ray Surgery
- 8:00 a.m.–2:00 p.m. | ASPMA Clinical Review Course
- 8:30–9:30 a.m. | Plenary Lecture: The Complicated Reconstruction Mini-Fellowship: Cases Forefoot to Ankle with Surgical and Technical Pearls
- 9:30–10:00 a.m. | CECH Scanning Outside the Lecture Hall
- 10:00 a.m.–12:00 p.m. | **TRACK 1:** Public Health, Disparities, and Physician Wellness | **TRACK 2:** Limb Preservation—The Charcot Foot | Assistants’ Educational Program: Human Resources and Front Office Administration
- 12:00–12:30 p.m. | CECH Scanning Outside the Lecture Hall
- 12:00–1:00 p.m. | **Non-CECH Lunch Symposium 1:** JUBLIA® (Efinaconazole) Topical Solution, 10% for the Treatment of Onychomycosis | **Non-CECH Lunch Symposium 2:** Beyond Excision—A Biologic Approach to Treat Uncontrolled Gout with Tophi | **Non-CECH Lunch Symposium 3:** Advanced Considerations in the Office-Based Setting for Patients Who Present with Chronic Diabetic Foot Ulcers | **Non-CECH Lunch Symposium 4:** A Bridge to Healing
- 12:00–1:30 p.m. | Break
- 1:30–3:00 p.m. | **TRACK 1:** Wound Care and the Diabetic Foot | **TRACK 2:** Surgical Complications | Assistants’ Educational Program: Hands-On Workshop: Total Contact Casting and Applications and Uses of DME
- 2:00–5:00 p.m. | ASPMA Radiology Review Course
- 3:00–4:00 p.m. | Opening Address: Running Toward Chaos (Non-CECH)
- 4:00–6:00 p.m. | Exhibit Hall Grand Opening/Reception; Young Physicians’ Reception; Exhibit Hall Open; CECH Scanning in the Exhibit Hall (all Non-CECH)
- 6:00–7:00 p.m. | Non-CECH Dinner Symposium: The Need for Longer-Acting Local Anesthetics for Postoperative Pain Management

LUNCH AND DINNER SYMPOSIA (NON-CECH)

The non-CECH lunch and dinner symposia are ticketed events with a limited number of meals available. Meeting attendees who did not preregister for these programs may take any available seats only after the start of the programs. Due to Sunshine Act regulations, these events are limited to only health-care professionals and office personnel.

Virtual attendees are invited to participate in non-CECH lunches and dinners. Navigate to each session within the APMA Meetings app for connection instructions.

THURSDAY, JULY 29 | 12:00–1:00 p.m.

AURORA BALLROOM C
Sponsored by a generous grant from Ortho Dermatologics.

Non-CECH Lunch Symposium 1
JUBLIA® (Efinaconazole) Topical Solution, 10% for the Treatment of Onychomycosis
FACULTY: Warren S. Joseph, DPM

AURORA BALLROOM B
Sponsored by a generous grant from Horizon Therapeutics USA, Inc.

Non-CECH Lunch Symposium 2
Beyond Excision—A Biologic Approach to Treat Uncontrolled Gout with Tophi
FACULTY: Christopher Parker, DO

CREST 3–4
Sponsored by a generous grant from Organogenesis.

Non-CECH Lunch Symposium 3
Advanced Considerations in the Office-Based Setting for Patients Who Present with Chronic Diabetic Foot Ulcers
FACULTY: Joseph M. Caporusso, DPM, and Andrew J. Rader, DPM

SUMMIT 6–7
Sponsored by a generous grant from LifeNet Health.

Non-CECH Lunch Symposium 4
A Bridge to Healing
FACULTY: Jeffrey A. Ross, DPM, MD
THURSDAY, JULY 29 | 6:00–7:00 p.m.

AURORA BALLROOM B

**Non-CECH Dinner Symposium**
The Need for Longer-Acting Local Anesthetics for Postoperative Pain Management

**FACULTY:** John Zimmerman, DPM

FRIDAY, JULY 30 | 12:00–1:00 p.m.

AURORA BALLROOM C

**Non-CECH Lunch Symposium 1**
Clinical Insights in Chronic CAD/PAD: Reducing the Risk of Major Cardiovascular Events

**FACULTY:** John N. Evans, DPM

AURORA BALLROOM B

**Non-CECH Lunch Symposium 2**
The Expanding Role of PCR Testing in Podiatric Medicine

**FACULTY:** William P. Scherer, DPM

FRIDAY, JULY 30 | 7:30-8:30 p.m.

AURORA BALLROOM B

**Non-CECH Dinner Symposium**
A Retrospective Analysis of the Medicare Database of Diabetic Foot Ulcer (DFU) Episodes 2015–2018

**FACULTY:** William H. Tettelbach, MD

SATURDAY, JULY 31 | 12:00–1:00 p.m.

AURORA BALLROOM C

**Non-CECH Lunch Symposium**
Seeing Is More Than Believing, It’s Knowing: Butterfly iQ+ in Podiatry

**FACULTY:** John Martin, MD, MBA
Special Events

OPENING ADDRESS (NON-CECH)

THURSDAY, JULY 29 | 3:00–4:00 p.m.

AURORA BALLROOM A
Sponsored by generous grants from Bako Diagnostics and NextGen Healthcare.

Natalie Stavas, MD, is a physician at Boston Children’s Hospital with a special focus on preventing childhood violence. During her presentation, “Running Toward Chaos,” she will discuss her experiences and personal philosophy, and how they have shaped her life and career.

On April 15, 2013, Dr. Stavas approached the finish line of her fifth Boston Marathon. Just blocks away, she heard explosions and ran toward them. Arriving at the scene, she went to work administering CPR, applying tourniquets, and triaging the wounded. After the bombings, Dr. Stavas increased her efforts in preventing childhood violence. This advocacy goes beyond borders; traveling to Haiti throughout the year, Dr. Stavas provides medical care to children and helps strengthen the fragile medical infrastructure.

YOUNG PHYSICIANS’ RECEPTION (NON-CECH)

THURSDAY, JULY 29 | 4:00–6:00 p.m.

EXHIBIT HALL,
APMA CAREER CENTER
BOOTH (#623)
Sponsored by generous grants from the American Board of Foot and Ankle Surgery and Bako Diagnostics.

Join your young physician colleagues at the APMA Career Center booth for a reception during the grand opening. Light refreshments will be available, a professional photographer will be on hand to take headshot photos, and you will have the opportunity to connect with other young physicians.
Special Events

INNOVATION CAFÉS (NON-CECH)

Join your colleagues during the Friday and Saturday morning exhibit hall scanning breaks for sponsored talks. Rest your feet, help yourself to brunch, and learn something new. Seating and refreshments offered on a first-come, first-served basis.

FRIDAY, JULY 30 | 9:45–10:15 a.m.

EXHIBIT HALL
Sponsored by a generous grant from Vionic Group LLC.

**Café 1:** Footwear Retailing 102: The Secrets to Profitability and Efficiency

FRIDAY, JULY 30 | 6:00–7:30 p.m.

FRONT RANGE LAWN
Sponsored by a generous grant from KorPath.

**RECEPTION HONORING DRS. RUBENSTEIN AND DESANTIS (NON-CECH)**

The COVID-19 public health crisis has caused the cancellation of many traditional events, including the in-person APMA House of Delegates in 2020 and 2021. Due to these changes, we were not able to properly celebrate our most recent presidents, Seth A. Rubenstein, DPM, and Jeffrey DeSantis, DPM. Please join us for a reception to honor these two leaders who have guided the organization through numerous challenges during the last 18 months.

SATURDAY, JULY 31 | 9:45–10:15 a.m.

EXHIBIT HALL
Sponsored by a generous grant from Abbott Laboratories.

**Café 2:** Innovations in Managing Chronic Foot & Ankle Pain: Dorsal Root Ganglion (DRG) Stimulation Therapy

FRIDAY, JULY 30  | 9:45–10:15 a.m.

EXHIBIT HALL
Sponsored by a generous grant from Abbott Laboratories.

**Café 2:** Innovations in Managing Chronic Foot & Ankle Pain: Dorsal Root Ganglion (DRG) Stimulation Therapy
**PODIATRY MANAGEMENT HALL OF FAME LUNCHEON (NON-CECH)**

**SATURDAY, JULY 31 | 12:00–1:00 p.m.**

**AURORA BALLROOM D**

This year’s event is sponsored by:

- 20/20 Imaging
- bako
- present
- Talar Medical

Join *Podiatry Management* for its annual Hall of Fame luncheon. This year’s honorees are:

- **Bryan Markinson, DPM**: podiatric author, lecturer, and expert on dermatopathology
- **Stephanie C.S. Wu, DPM**: dean of the Dr. William M. Scholl College of Podiatric Medicine at the Rosalind Franklin University of Medicine and Science. *(Note: Dr. Wu is unable to attend the 2021 Hall of Fame ceremony and will be inducted in 2022.)*
- **Jason Kraus**: podiatric entrepreneur and innovator
- **Cindy Pezza**: practice management expert

Individual tickets are $75 and $750 for a table. If you did not purchase your ticket(s) when you registered for The National, you may do so at Registration in Denver. To collect your physical ticket, visit the APMA booth (#611) before Saturday’s event.

You must be registered for The National to attend the luncheon.

*Podiatry Management’s Hall of Fame* was created to recognize a podiatrist’s and a non-podiatrist’s accomplishments in the podiatric medical profession. This award is unique in that recipients are not selected by a committee, but by American podiatrists’ votes in *Podiatry Management’s* annual survey.

---

Proceeds from the event support the APMA Educational Foundation. Scholarships are awarded annually to eligible podiatric medical students in their third or fourth year at the nine accredited colleges of podiatric medicine.
Special Events

**WELLNESS RECEPTION (NON-CECH)**

**SATURDAY, JULY 31 | 6:00–7:00 p.m.**

**VERANDA**

*Sponsored by a generous grant from The Podiatry Foundation.*

The Wellness Reception follows the Fourth Annual Podiatry School Student Quiz Bowl. The reception gives attendees the opportunity to regroup and refocus after the rousing competition while enjoying complimentary food and beverages. Attendees can refresh and reflect on the meeting thus far before they absorb a timely but intense subject during the “Do No Harm” film and panel discussion.

**TEAM APMA 5K RUN/WALK (NON-CECH)**

**GOLD**

**SILVER**

Thank you to all Team APMA members who participated in this year’s virtual event in support of the APMA Educational Foundation. Check out [www.apma.org/teamapma](http://www.apma.org/teamapma) for results.

If you have not signed up yet, registration is open until August 2. Register and pick up your event T-shirt at the APMA booth (#611). You can always make a donation to support the future of podiatric medicine by visiting [www.apma.org/donate](http://www.apma.org/donate).

---

CONTINUING EDUCATION

Continuing Education Contact Hours .................................................. 20
Educational Program Faculty ............................................................ 22
Educational Program Objectives ....................................................... 29
PODIATRIC PHYSICIANS

APMA is approved by the Council on Podiatric Medical Education (CPME) as a provider of continuing education in podiatric medicine. APMA has approved this activity for a maximum of 29.5 continuing education contact hours (CECH)*. Approval of the program has been requested from all state licensing boards.

In accordance with the requirements of CPME, APMA is required to monitor educational session attendance for verification of CECH.

Podiatric physicians are responsible for reporting their attendance to all appropriate boards and agencies requiring continuing education.

Credits may be registered with state boards by providing them with a copy of your CECH certificate.

PODIATRIC MEDICAL ASSISTANTS

APMA is approved by the Commission on Accreditation of Podiatric Medical Assisting Certification (CAPMAC) as a sponsor of continuing education in podiatric medical assisting. Program participants may earn up to 29.5 CECH*. Only 20 credits are required per year for certification renewal.

In accordance with CAPMAC requirements, APMA is required to monitor educational session attendance for CECH verification.

Badges are bar-coded with your personal information and must be scanned.

In-person attendees will receive an email from APMA Online CECH following the meeting when the scanning data has been uploaded to the APMA Online Learning Center. There you will complete the evaluation form and download your certificate of attendance.

Podiatric medical assistants are responsible for reporting their attendance to the recertification committee.

NOTE: CECH functions are for registered attendees only. APMA’s official policy is to provide attendees with a certificate of attendance that reflects only the number of CECH scanned or verified. To receive the maximum number of CECH, you must be scanned at each of the listed scanning sessions (for in-person attendees) or you must enter the verification codes in the APMA Online Learning Center (for virtual attendees).

* This number is based on attendance at all general session lectures, breakfast symposia, plenary lectures, the APMA Poster Abstracts Symposium, and the “Do No Harm”/Physician Wellness program.

ALL ATTENDEES

Badges are bar-coded with your personal information and must be scanned.

In-person attendees will receive an email from APMA Online CECH following the meeting when the scanning data has been uploaded to the APMA Online Learning Center. There you will complete the evaluation form and download your certificate of attendance.

VIRTUAL ATTENDEES

Codes will be provided during the internet live activity to enter into the APMA Online Learning Center to confirm your participation.

Virtual attendees may complete the evaluation form in the APMA Online Learning Center at the conclusion of the meeting.
Continuing Education Contact Hours

ATTENDANCE VERIFICATION

IN-PERSON ATTENDEES

To receive your CECH, you must scan your badge during each of the noted scanning times. Below are the scanning schedule, scanning locations, and contact hours available:

Thursday, July 29
9:30–10:00 a.m.
Scanning outside the lecture hall
2.5 contact hours
12:00–12:30 p.m.
Scanning outside the lecture hall
2 contact hours
4:00–6:00 p.m.
Scanning in the exhibit hall
1.5 contact hours

Friday, July 30
9:30–10:30 a.m.
Scanning in the exhibit hall
2.5 contact hours
12–1:30 p.m.
Scanning in the exhibit hall
1.5 contact hours
5:45 p.m.
Scanning outside the lecture hall
4 contact hours

Saturday, July 31
9:30–10:30 a.m.
Scanning in the exhibit hall
2 contact hours
12:00–1:00 p.m.
Scanning in the exhibit hall
1.5 contact hours

Poster Abstracts Symposium
Scanning in the poster exhibit
1 contact hour
6:00 p.m.
Scanning outside the lecture hall
4 contact hours
9:00 p.m.
Scanning outside the lecture hall
2 contact hours

Sunday, August 1
10:30–11:00 a.m.
Scanning outside the lecture hall
3.5 contact hours
12:30 p.m.
Scanning outside the lecture hall
1.5 contact hours

VIRTUAL ATTENDEES

Verification codes will be provided several times each day during the internet live activity to be entered into the APMA Online Learning Center to confirm your participation.

To receive the maximum number of CECH available, registrants must attend the entire webinar, enter the codes that will appear randomly on the screen during the webinar into the APMA Online Learning Center, and complete the overall evaluation form.

APMA CONTINUING EDUCATION MISSION STATEMENT

The American Podiatric Medical Association (APMA) advances and advocates for the profession of podiatric medicine and surgery for the benefit of its members and the public. To this end, APMA offers continuing education opportunities for podiatric physicians to meet their licensing requirements, to maintain and expand their knowledge, to provide optimum patient care, and to receive updates on advances in foot and ankle care. These educational opportunities may include face-to-face, internet live, and on-demand continuing education activities.

CODE OF CONDUCT

All participants in APMA meetings and events (inclusive of attendees, speakers, volunteers, exhibitors, staff, members of the media, vendors, service providers, and guests) shall abide by the following professional behavior expectations:

- Comply with all rules in place to prevent the spread of COVID-19.
- Respect the diversity of all participants regardless of gender, gender identity and expression, age, sexual orientation, disability, physical appearance, race, ethnicity, religion (or lack thereof), or technology choices.
- Treat all participants with kindness and consideration, respecting the views and opinions of others (including those you may not share) and critiquing ideas rather than individuals.
- Refrain from demeaning, discriminatory, bullying, or harassing behavior and speech directed toward other participants. Physical or verbal abuse of any participant shall not be tolerated.
- Comply with all rules and policies of the meeting/event venue.
- Refrain from use of sexual or discriminatory images and/or inferences in presentations, public spaces, or in online media.
- Maintain appropriate decorum by not being disruptive during lectures, poster sessions, in the exhibit hall, receptions, or other events.

Any participant who is requested to stop unacceptable behavior is expected to comply immediately. As necessary, APMA staff or security may take immediate action deemed appropriate, including removal from the meeting or event without warning or refund. APMA reserves the right to prohibit attendance at any future meeting or event.

This code of conduct shall apply to all venues, including ancillary events and social gatherings and shall be included in materials provided to all participants.

Violations of this code of conduct by APMA members may be referred to the member’s component for further adjudication under the APMA Code of Ethics.

Educational Program Objectives

AT THE CONCLUSION OF THIS PROGRAM, ATTENDEES WILL:

• describe current literature on the most researched wound care methods and review new literature for up-and-coming treatment options for wound care;

• discuss surgical pearls in a variety of first ray surgical procedures, recognize the anatomy and biomechanics that would lead a surgeon to select a particular procedure to correct first ray pathology, and discuss indications, surgical principles, techniques, and fixation options for common first ray surgical procedures;

• assess complicated primary and revisional surgical cases of the forefoot and hindfoot/ankle and treatment strategies;

• discuss the burnout prevalence in podiatry residents, raise awareness regarding the association between anxiety and burnout, and highlight contributory and preventive factors of burnout among podiatry residents; explain the latest in medical cannabis research and the public health best practices identified for safe medical cannabis use; be able to measure one’s own biases, stereotypes, and level of cultural competence, demonstrate an understanding of health-care needs and health disparities of diverse populations, and seek to develop clinical approaches that take cultural diversity into account; and report the characteristics that have been associated with higher risk-adjusted amputation rates and appreciate the interplay between characteristics of individual patients, communities, and hospitals/providers;

• understand Charcot arthropathy pathophysiology and summarize the outcomes of exostectomy, midfoot reconstruction, and superconstruct; appreciate the recent history of Charcot foot reconstruction, when surgical reconstruction is indicated, medical optimization of the patient before surgery, the roles of internal versus external fixation, and Charcot-specific hardware/devices currently in use; and recognize the unique challenges that Charcot salvage with osteomyelitis presents;

• identify the appropriate team members involved in diabetic foot ulcer care and limb salvage; understand the appropriate debridement depth, frequency, and approach to chronic diabetic foot ulcers; and state the use and effectiveness of total contact casting to offload the diabetic foot ulcer;

• identify complications when they occur with bunion surgery, know how to communicate with patients about surgical complications, and indicate patient risk factors involved with complications from bunion surgery; describe surgical and nonsurgical treatment options of floating toe syndrome, enhance practice performances by discussing complications of surgical treatment of floating toe syndrome, and understand the prevention and management of floating toe syndrome; identify surgery cases that need revision surgery, review the appropriate work-up for revision surgery, and understand how and when to use fixation in revision surgery; distinguish complications associated with hardware failure, appreciate strategies for hardware removal, and understand hardware available for hardware removal; and explain basic bone healing, know the common types of nonunion, and be exposed to common adjuncts and fixation adjustments to help with nonunion revision;

• list classic signs and symptoms of a variety of dermatologic conditions presenting in the lower extremity, discuss risk factors associated with different types of dermatologic conditions, describe initial treatment options for a variety of dermatologic conditions, and recognize when biopsy or referral may be the next step; and discuss dermatologic manifestations of COVID-19 findings in the literature and how they relate to podiatric medicine, and review skin manifestations of viral diseases;
Educational Program Objectives

- better understand proper documentation and compliance as related to pre-operative patient assessment and post-operative patient management; and comprehend multimodal post-operative pain management;
- recognize signs, symptoms, and clinical expression of PsA; discuss relevant lab studies used to diagnose PsA; identify factors associated with exacerbations of psoriasis; name common PsA pedal radiographic findings, from early to late stage; explain the importance of proper and timely diagnosis of PsA in order to improve patient outcomes; understand the implications of an underlying diagnosis of PsA on surgical planning; and describe the role of the team of medical professionals in the multidisciplinary care of patients with PsA;
- cite contraindications of certain dermatologic and other medications in pregnant and breastfeeding women, understand how to improve patient outcomes with surgical management of melanoma, improve diagnostic skills for onychodystrophy and onychomycosis, improve patient outcomes with proper nail specimen collection technique and laboratory testing, and distinguish changes in treatment options for onychodystrophy versus onychomycosis;
- restate the importance of wound bed preparation, discuss various methods of wound debridement, examine the types of CPTs available for wound care, and report ways to implement CPTs into clinical practice; review the post-operative complication rate and re-amputation rate in transmetatarsal amputations, recall the vascular anatomy and relevance to incisional planning for transmetatarsal amputations, review the risk factors for complications, and know treatment options to manage and address complications in transmetatarsal amputations; recognize various instability patterns in patients presenting with ankle instability, provide the rationale for anatomic reconstruction versus direct repair and indications for concurrent procedures for long-term success; and define the role of endoscopic calcaneoplasty in the management of insertion Achilles tendinopathy and Haglund’s deformity, describe the patient selection criteria for endoscopic calcaneoplasty, and identify instrumentation required and visualize the technique required for performing endoscopic calcaneoplasty;
- identify acute and chronic foot and ankle injuries specific to different sports, fitness activities, and patient populations and recognize and assess current data reflecting clinical trends, emerging surgical and conservative treatment modalities, and pre- and post-operative protocols specific to athletes; and understand the biomechanics underlying specific foot and ankle pathologies and acquire conservative and surgical skills to address pathologies and optimize biomechanical function;
- summarize various forefoot surgery techniques, better understand common conditions and treatment options for fifth toe conditions, review the literature of flexor tendon transfers and plantar plate repair, compare flexor tendon transfers versus plantar plate procedures, review the basics of pediatric surgical planning, understand what cannot be accomplished with minimally invasive surgery, review the pathology of hallux valgus deformities and what minimally invasive surgery does not address, understand the indications with juvenile minimally invasive surgery for bunion management, and review difficult forefoot surgical cases to enhance surgical outcomes;
- be familiar with basic and advanced elements of diagnostic foot and ankle ultrasound examinations and ultrasound-guided aspirations and injections of the lower extremity;
Educational Program Objectives

• demonstrate how to use a dermatoscope, discuss how dermoscopy is helpful for the diagnosis of benign and malignant skin lesions, list some structures that are visible in the skin with the dermatoscope, and describe how dermoscopy can be used for nail pathology; and discuss various biopsy techniques and indications for biopsies;

• distinguish the radiographic appearance of congenital positional abnormalities, including calcaneovalgus, congenital pes valgus, metatarsal adductus, tibial torsion, and the cavus foot; recognize the radiographic appearance of nutritional diseases including osteomalacia, rickets, hypophosphatasia, scurvy, hypervitaminosis D, fluorosis, and hypervitaminosis A and recognize the radiographic appearance of the more common pedal developmental variants; recognize the radiographic signs of diseases that cause epiphyseal region abnormalities, understand the basic technology of the PET scan, understand the physiological presentation of pathological findings on a PET scan, list the podiatric indications of ordering a PET scan, and appreciate acute Charcot findings versus osteomyelitis on a PET scan; identify the radiographic manifestations of diabetes demonstrated on pedal radiographs, appreciate the nuanced distinction between atrophic and hypertrophic neuroarthropathy as well as how these findings may mimic infection; be cognizant of the utilization of nuclear imaging in the assessment of diabetic foot pathology and appreciate the role that MRI can play in the assistance of diagnosing pedal infection; and understand the decision-making process for physician selection of various imaging modalities, appreciate the necessity for obtaining ultrasound and MRI exams in providing accurate diagnoses, and understand how advanced imaging modalities assist in management and determining the plan of care for patients with specific pedal pathology;

• be able to optimize outcomes for the patient with foot and ankle trauma; know how to extrapolate conservative and surgical treatment options for various foot and ankle injuries; and understand and prevent complications associated with foot and ankle trauma and be able to utilize various fixation techniques when treating the foot and ankle trauma patient;

• understand the importance of patient selection, review the role of communication in assisting in mitigating risk, and discuss case situations that “will never go away”;

• gain updated knowledge about the latest research into a variety of foot and ankle conditions;

• report basic surgical and deformity planning and how an app-based planning tool can assist; review common foot and ankle neuromuscular disorders, and review typical presentations and surgical options for neuromuscular disorders of the foot and ankle; recognize the pathoanatomy involved in low-energy Lisfranc injuries, recognize the pros and cons of primary tarsometatarsal arthrodesis, and identify scenarios when biologic augmentation may be appropriate in primary arthrodesis; comprehend principles of less common tendon transfers and think outside norms to help preserve function for patients in unique circumstances; and recognize indications for primary arthrodesis versus ORIF and recognize the indications for use of biologics in primary arthrodesis;

• acquire knowledge of ankle arthroscopy, including indications, anatomy, portals, and advanced arthroscopic techniques;

• understand problems with using currently available antibiotics for MRSA infection, list newer antibiotics for the treatment of MRSA, and appreciate the advantages of newer drugs over more traditional therapies;
Educational Program Objectives

• identify controversial foot and ankle conditions and the evidence for pursuing specific treatment protocols;

• recognize how common physician suicide is and the extent of its magnitude within the health-care industry; become aware of available resources for podiatric physicians in distress; and know how to identify, approach, and appropriately refer podiatric physicians who may be in distress;

• appreciate the importance of proper ethical decision making in patient care;

• better understand the provider’s role in the opioid epidemic and spur interpersonal thought on opioid prescribing habits; and interpret current data concerning the use of opioids in the United States, understand the risk of opioid addiction, and appreciate the current ethical challenges when prescribing opioids; and

• increase awareness of current coding issues and solutions for better patient care; recognize external threats to your practice and how to prevent them; understand the implications of HIPAA privacy and security risks of electronic communications with patients; and understand the inherent risks associated with using personal electronic devices in medical practice.
### THURSDAY / JULY 29

#### Breakfast Symposium 1
**Evidence-Based Wound Care**

APMA has designated unrestricted educational grants from 3M+KCI, Cook Medical, Organogenesis, and Smith+Nephew to support this program.

**MODERATOR:** Laura J. Pickard, DPM  
Rachel H. Albright, DPM, MPH*, and Andrew J. Meyr, DPM

**AURORA BALLROOM B**  
7:00–8:30 a.m.

#### Breakfast Symposium 2
**First Ray Surgery**

APMA has designated unrestricted educational grants from Paragon28 and Stryker to support this program.

**MODERATOR:** Seth A. Rubenstein, DPM  
Jeffrey DeSantis, DPM

**AURORA BALLROOM C**  
7:00–8:30 a.m.

#### Plenary Lecture
**The Complicated Reconstruction Mini-Fellowship: Cases Forefoot to Ankle with Surgical and Technique Pearls**

**MODERATOR:** William S. Long, DPM  
Christopher F. Hyer, DPM

**AURORA BALLROOM A**  
8:30–9:30 a.m.

#### CECH Scanning Outside the Lecture Hall

9:30–10:00 a.m.

**TRACK 1: Public Health, Disparities, and Physician Wellness**

APMA has designated an unrestricted educational grant from 3M+KCI to support this program.

**TRACK LEADER/MODERATOR:** Janet Simon, DPM

- **Perceptions of Burnout, Personal Achievement, and Anxiety Among US Podiatric Medicine and Surgery Residents: A Cross-Sectional Pilot Study**  
  Calvin J. Rushing, DPM*

- **Medical Cannabis Update**  
  Leslie G. McAhren, MFA, MPH

- **Bias and Cultural Awareness: Clinical Pointers**  
  Janet Simon, DPM

- **Disparities and Limb Preservation**  
  Neal R. Barshes, MD, MPH

- **Questions and Answers**  
  11:45 a.m.–12:00 p.m.

**AURORA BALLROOM D**  
10:00 a.m.–12:00 p.m.

---

**Note:**  
- All times are Mountain Daylight Time.  
- All breakfast symposia are limited to registered attendees only. Guests are not permitted.
**DPM Educational Program**

**Thursday / July 29**

**TRACK 2: Limb Preservation—The Charcot Foot**
APMA has designated unrestricted educational grants from 3M+KCI, Organogenesis, and Smith+Nephew to support this program.

**TRACK LEADER/MODERATORS:** Emily A. Cook, DPM, MPH, CPH, and Jeremy J. Cook, DPM, MPH, CPH

DPM Educational Program
Friday / July 30

Review of Dermatologic and Other Medications in Pregnant and Breastfeeding Patients
Meera V. Simoes, MD
10:30–10:50 a.m.

Surgical Management of Melanoma
Mitzi L. Williams, DPM
10:50–11:10 a.m.

Onychodystrophy versus Onychomycosis
William P. Scherer, DPM
11:10–11:30 a.m.

Pigmented Lesions in Children
Tracey C. Vlahovic, DPM
11:30–11:50 a.m.

Questions and Answers
11:50 a.m.–12:00 p.m.

TRACK 2: Surgical Blitz
APMA has designated an unrestricted educational grant from Stryker to support this program.

MODERATOR: Rebecca A. Sundling, DPM, MPH*

AURORA BALLROOM A
10:30 a.m.–12:00 p.m.

Wound Bed Prep and Application of Cellular and/or Tissue Based Products (CPTs)
Windy E. Cole, DPM
10:30–10:40 a.m.

Transmetatarsal Amputations: The Good, the Bad, and the Ugly
James H. Whelan, DPM*
10:40–10:50 a.m.

Osteomyelitis
Kimberlee B. Hobizal, DPM, MHA
10:50–11:00 a.m.

Ankle Instability: Tips for Addressing Isolated Lateral, Medial, and Multi-Directional Instability Patterns
Calvin J. Rushing, DPM*
11:00–11:10 a.m.

Mini-Open Ankle Arthrodesis
Jacob Wynes, DPM, MS
11:10–11:20 a.m.

Lapidus Pearls
Daniel J. Hatch, DPM
11:20–11:30 a.m.

Endoscopic Calcaneoplasty
Duane J. Ehredt Jr., DPM
11:30–11:40 a.m.

Questions and Answers
11:40 a.m.–12:00 p.m.

Non-CECH Lunch Symposium 1: Clinical Insights in Chronic CAD/PAD: Reducing the Risk of Major Cardiovascular Events

Sponsored by a generous grant from Janssen Pharmaceutical Companies.

MODERATOR: William S. Long, DPM

**Surgical Management of Unstable, Low-Energy Lisfranc Injuries**
Adam E. Fleischer, DPM, MPH
11:10–11:20 a.m.

**Not-So-Common Tendon Transfers**
Rebecca A. Sundling, DPM, MPH*
11:20–11:30 a.m.

**Pearls on Amputation Techniques**
Andrew J. Meyr, DPM
11:30–11:40 a.m.

**Questions and Answers**
11:40 a.m.–12:00 p.m.

**Students’ and Residents’ Program (Non-CECH)**

*Sponsored by a generous grant from the American Board of Podiatric Medicine.

**MODERATOR:** Calvin J. Rushing, DPM*

**CREST 1–2**
10:30 a.m.–12:00 p.m.

**Physician Burnout**
Calvin J. Rushing, DPM*
10:30–10:45 a.m.

**Financial Literacy for the Podiatric Fellow, Resident, and Student**
Alton R. Johnson, DPM*
10:45–11:00 a.m.

**Buying an Existing Practice**
Michelle P. Sparks, DPM
11:00–11:15 a.m.

**How to be Successful in Residency**
Kimberlee B. Hobizal, DPM, MHA
11:15–11:30 a.m.

**Panel Discussion: Job Search Timeline—How Soon is Too Soon to Begin Looking and When is the Ideal Time?**
Drs. Hobizal, Johnson*, Rushing*, and Sparks
11:30–11:50 a.m.

**Questions and Answers**
11:50 a.m.–12:00 p.m.

Are you maximizing your membership?

APMA is the only organization advocating for podiatry at the national level. Representing DPMs in conversations with legislators, regulators, policymakers, and decision makers across the board; APMA is the voice of the profession.

> www.apma.org/victories

As an APMA member, I can contribute my voice to these important conversations. Without APMA’s national advocacy work, podiatry would not be where it is today.

R. Andrew Pavelescu, DPM, New York
Celebrating PICA’s 40th Anniversary

40 years of protecting and supporting podiatric physicians and surgeons in every aspect of their practices.

40 years of influencing and growing with the podiatry industry and advancing the podiatric profession.

40 years of protecting our podiatrists so they can focus on patient care and being the best healthcare practitioner possible.

Forty years and forward!

BEYOND EXCISION—A BIOLOGIC APPROACH TO TREAT UNCONTROLLED GOUT WITH TOPHI

JOIN US FOR A PODIATRY-FOCUSED LECTURE SERIES ON THE IMPLICATIONS OF BIOLOGIC TREATMENT ON UNCONTROLLED GOUT

Nail fungal infections are known to be very common conditions, especially in the aging population.

However, bacterial infections and skin disorders can mimic the fungal presentation and may lead clinicians to choose ineffective treatment regimens.

The diagnosis of nail infections can take up to 3-4 weeks with conventional techniques and the treatment protocols are complicated, costly and carry risks. A patient’s quality of life is negatively impacted for most individuals, and particular subsets of the population with diabetes and immunocompromised systems can experience significant complications leading to secondary infections and amputations.

The utilization of advanced molecular PCR technology has proven to be more sensitive and specific than culture results and can help clinicians rapidly identify the causative agent(s) before developing a treatment plan.¹

We serve and nurture Podiatric Medicine, education and research.

The Podiatry Foundation is committed to providing grant funds for research and educational projects that enhance the future of podiatric medical education. We have assisted many national and state organizations. We are here to serve the profession. Please contact us regarding your specific project. We look forward to serving you.

STAY A STEP AHEAD WITH AN

APMA-supported EHR solution

By combining the power of the American Podiatric Medical Association data registry, a MIPS-focused app, and an electronic health record, NextGen® Office is built for today’s podiatry practices.

Learn more at nextgen.com/betterfootcare

“I don’t think there is anything I could ask of that their team could not resolve. NextGen Office is truly built for podiatry practices. In addition to the podiatry-specific templates and access to the APMA data registry, their billing team works hard for your money.”

- Marcin N. Vaclaw, DPM
  Foot & Ankle Specialists of the Woodlands
We are having a contest at the APMA National conference. Use the picture below to find all the Board members.

**Rules below!**

- Pick up entry form at ASPMA Booth 607 and Assistant Lecture rooms.

- Get form signed by all board members Hint: we will be wearing scrubs.

- Turn in completed form to ASPMA Booth 607 to enter drawing.

**Drawing will be noon Saturday**

---

The American Society of Podiatric Medical Assistants would like to introduce ourselves to you!

---

We are looking forward to meeting you.

SERIOUS INFECTIONS

NEED SERIOUS CONVERSATIONS

Talk to your patients about onychomycosis. Treat the infection with JUBLIA.¹

INDICATION

JUBLIA® (efinaconazole) topical solution, 10%, is indicated for the topical treatment of onychomycosis (tinea unguium) of the toenail(s) due to Trichophyton rubrum and Trichophyton mentagrophytes.

IMPORTANT SAFETY INFORMATION

• JUBLIA is for topical use only and is not for oral, ophthalmic, or intravaginal use.

• Patients should be instructed to contact their health care professional if a reaction suggesting sensitivity or severe irritation occurs.

• The most common adverse reactions (incidence ≥1%) were (vs vehicle): ingrown toenail (2.3% vs 0.7%), application-site dermatitis (2.2% vs 0.2%), application-site vesicles (1.6% vs 0%), and application-site pain (1.1% vs 0.2%).

• JUBLIA should be used during pregnancy only if the potential benefit justifies the potential risk to the fetus, and should be used with caution in nursing women. The safety and effectiveness in pediatric patients below 6 years of age have not been established.

To report SUSPECTED ADVERSE REACTIONS, contact Ortho Dermatologics at 1-800-321-4576 or the FDA at 1-800-FDA-1088 or visit www.fda.gov/medwatch.

Please see Brief Summary of full Prescribing Information on the adjacent page.

PANDIT FOOT & ANKLE CLINIC

Podiatrist sees 1753% ROI with PatientPop

155% increase in total appointments
128% increase in new patients
1,753% return on investment

Challenge
To promote her practice, Dr. Pandit had tried doing it herself, but she was unable to track whether any of her efforts were driving return-on-investment (ROI).

Solution
PatientPop provided an all-in-one marketing solution that enhanced Dr. Pandit’s online presence, redesigned her website for search, boosted her online reputation, and provided transparency on her practice’s ROI.

Creating the Future of Podiatry Together.

We’ve assembled some of the top visionaries in the podiatry community to offer innovative podiatry-specific solutions, including EHR and Practice Management systems, patient engagement tools and billing services.

“modmed Podiatry is a streamlined all-in-one solution to EMR and medical practice billing. I no longer have to wade through depths of unnecessary clinical options in cumbersome software. I also don’t need to hire a specialized biller because the billing is so well integrated and posting insurance payments is seamless.”

– KAREN ANDERSON, DPM

**A Bridge to Healing**

12-1 P.M. • Thursday, July 29

*Jeffrey A. Ross, DPM, MD*
Associate Professor of Surgery
Baylor College of Medicine
Your wound care partner every step of the way.

Wound healing can be a complex journey. As patients transition between care settings, they rely on you for consistent, quality care — and you can count on 3M to deliver science-based solutions to support you.

**Case study: Infected diabetic foot ulcer**
Image at left is at presentation. Image at right was after amputation, debridement, intravenous antibiotic therapy, and 10 weeks with 3M™ Veraflo™ Therapy and 3M™ ActiV.A.C.™ Therapy System. After 3M™ V.A.C.® Therapy was discontinued, 3M™ Promogran Prisma™ Matrix was applied to facilitate wound closure.

The results speak for themselves.
