Educational Objectives

At the conclusion of this program, attendees will be able to:

- ❖ cite the reference for the definition of a significant and separately identifiable evaluation and management;
- ❖ create a progress note that models a significant and separately identifiable evaluation and management;
- ❖ identify the NCCI PTP edits for nail care and callus care on same date of service;
- ❖ identify what tools are available to appeal inappropriate claim denials;
- ❖ clarify the required documentation for at-risk foot care;
- ❖ differentiate between the -78 and -79 modifiers;
- ❖ cite the only modifier for evaluation and management services during the postoperative global period;
- ❖ list the first three characters of the ICD-10 code for pressure ulcers;
- ❖ differentiate between the coding for pressure ulcers and pressure injuries;
- ❖ identify information contained in the CMS RVU file;
- ❖ identify how to access and use the detailed information applicable to foot and ankle care;
- ❖ list three required elements of documenting ulcer debridement; and
- ❖ cite one potential source of documentation requirements.
