### **Educational Objectives**

At the conclusion of this program, attendees will be able to:

- ❖ Define “chronic” according to the AMA CPT® evaluation and management guidelines.
- ❖ Differentiate between the evaluation and management level selection pathways of “medical decision making” versus “total time.”
- ❖ List 3 social determinants of health.
- ❖ List 2 pathologies that may be impacted by a social determinant of health.
- ❖ Differentiate between a partial nail avulsion and a nail excision.
- ❖ List two reasons why it may be medically necessary to repeat a nail excision for the same toe.
- ❖ Identify the distal phalanx as part of the hallux interphalangeal joint.
- ❖ Differentiate between nail debridement and nail trimming.
- ❖ List the documentation elements required for radiology services.
- ❖ Contrast “result” and “interpretation” as they apply to medical imaging.
- ❖ Distinguish between injectable non-insulin antidiabetic medication and oral hypoglycemic medication.
- ❖ Compare “unspecified” and “unlisted” diagnosis codes.
- ❖ Describe an example of one cast treating multiple fractures.
- ❖ Differentiate between diagnostic arthroscopy and therapeutic arthroscopy.
